Experience

CCT

Remote (office in Tulsa, OK)

Senior Product Manager, Insight Cash

September 2026 - Present

- Own the product strategy for Insight Cash, the cage, vault, and revenue audit product within CCT's Casino Insight platform, driving discovery directly with casino accounting, finance, and audit teams at properties across the country.
- Lead the migration of a legacy WinForms desktop application to a modern multi-tenant web application on an AWS backend, defining the product strategy and rollout sequencing across the existing customer base.
- Shape the organization's AI-assisted development lifecycle (AI-DLC) workflows, establishing how product and engineering scope, specify, and ship work with AI in the loop.

DoubleVerify

Remote (office in NYC, NY)

Product Manager

April 2023 - August 2026

- Led the discovery, prioritization, development, and GTM for Attention Measurement for Marketplaces, launched to GA in Q2 2026 with 3 Marketplace platforms signed out of the beta and a further 5+ in the pipeline at handoff.
- Successfully designed and pitched a cross-organizational technical enhancement to senior management across 6+ product groups, leading to the prioritization and full execution, recognized as a top-5 revenue initiative in 2024.
- Owned the product strategy for a suite of four pre-existing advertising products, growing the combined annual recurring revenue from \$39M to \$50M (+14% YoY) over 2 years by refocusing the roadmaps to prioritize features that opened new business development opportunities over incremental accuracy and performance.

Oracle

Remote (office in NYC, NY)

Product Manager

March 2022 - February 2023

- Launched and supported a self-service interface that stitched together and externalized 7 previously disjointed, buggy, and internal-only configuration tools, saving an estimated 120 hours / month FTE.
- Served as the primary point of contact for product and commercial to a cross-company analytics team - defined, prioritized, and championed all of Moat's product analytics needs and launches.

Gravitate

Remote (office in Dallas, TX)

Product Manager

May 2020 - February 2022

- Joined a pre-seed startup as the founding product manager, leading hundreds of discovery sessions to inform product roadmap priorities along with the company founder, achieving a strong product-market fit as demonstrated by growing revenue from \$0 ARR to >\$1M in ARR within my tenure.
- Served as the statistics and machine learning SME by researching, coding, and pitching numerous AI / ML features, including novel fuel demand forecasting and best-price fuel purchasing algorithms.

Oklahoma State University

Stillwater, OK

Statistics Instructor

August 2018 - May 2020

- Sole instructor of record to large auditorium sized sections of STAT 2023 - Elementary Statistics and STAT 2053 - Statistics for the Social Sciences; responsible for all lectures, assignments, and evaluations.

United States Geological Survey

Fort Collins, CO

Data Analyst

May 2015 - May 2017

- Scientific experiment design and data analysis using statistical models including various Generalized Linear Models and non-parametric methods using Python, R, MATLAB, SQL.

Education
